

DOUBLE-SIDED

FABRIC TAPE

Double-sided fabric-backed tape is reinforced with viscose tape with double-sided adhesive layer covered with siliconized paper liner. The fabric base of the tape is elastic and thick enough to provide increased strength of the tape, and is characterized by high-quality adhesion even to surfaces of complex shapes and rough materials.

CHARACTERISTICS:

Base material	Vendor code	Size	Quantity pcs/box	Color	Barcode
Textile	DCT385	38mm*5m	64 pcs.	Base – transparent, liner – mustard	4824012356698
	DCT3810	38mm*10m	48 pcs.		4824012356520
	DCT505	50mm*5m	72 pcs.		4824012356513
	DCT5010	50mm*10m	48 pcs.		4824012356537
	DCT5025	50mm*25m	36 pcs.		4824012356544

ADVANTAGES:

- adhesion force with high shear, shear and tear strength;
- high elasticity and flexibility allow you to fix rough materials;
- fabric base guarantees adhesion without damaging coatings;
- high quality protective liner, retains the properties of the adhesive layer of the tape;
- high strength and reliability of the tape in combination with long-term adhesiveness and heat resistance;
- resistance to UV radiation, moisture, low and high temperatures and solvents;
- exactly repeats the curves of the surface;
- high level of adhesion to linoleum, carpet, metal, wood, plastic, PP, PE, leather, leatherette, fabric and cardboard;
- speed and ease of use, ease of disposal.

APPLICATION:

- work with flooring: reliably fixes carpet and linoleum of all types;
- gluing and bonding joints of various surfaces;
- protection of the covering from twisting;
- temporary fastening of materials to machines;
- gluing materials that are subject to heavy loads;
- decoration of exhibition premises;
- installation of materials that are subjected to mechanical stimuli;
- gluing roll materials;
- fixing rough and uneven surfaces, pasting edges and curved parts.
