

MOUNTING

DOUBLE-SIDED FOAM TAPE

Double-sided **MOUNTING** foam-based tape **from TM Mustang** is a high quality polyethylene foam white tape with synthetic rubber adhesive, protected on one side by a red liner that can be easily removed. The tape distributes the load over the entire bonding area, reducing noise and absorbing vibrations. The high elasticity of the tape allows it to fill all the microroughnesses of the surfaces to be joined.

CHARACTERISTICS:

Base material	Vendor code	Size	Quantity pcs/box	Color	Thickness	Heat resistance	Barcode
Foamed polyethylene	FTM0122	12mm*2m	96	Base – white, liner – red	1mm	from -30 to +120°C	4824012487255
	FTM0125	12mm*5m	126				4824012356896
	FTM0152	15mm*2m	96				4824012731921
	FTM0155	15mm*5m	102				4824012356803
	FTM0192	19mm*2m	96				4824012248962
	FTM0195	19mm*5m	78				4824012356711

ADVANTAGES:

- super strong adhesion, UV stability, moisture resistance, resistance to oils and solvents;
- the elasticity of the foam base compensates for structural deviations and surface irregularities;
- perfect and tight fit to the base;
- does not leave damage on the surfaces of the materials to be joined;
- ability to withstand significant loads;
- invisibility of the gluing contour;
- convenience and ease of use due to manual tear-off.

APPLICATION:

- fixing of panels made of metal, glass, plastic, wood to the frame;
- installation of decorative elements, hooks, mirrors, cable channels and other objects in the room and outside;
- decoration of interiors and advertising media;
- fastening of POS-materials: displays, wobblers, stoppers and toppers;
- installation of household items when it is necessary to replace traditional mechanical installation methods (rivets, screws, welds, etc.).
