

ELECTRO ENERGY ⚡ FIX

DOUBLE-SIDED
ADHESIVE TAPE

CHARACTERISTICS:

Base material	Adhesive layer	Vendor code	Size	Quantity in a box	Color	Packaging	Thickness	Heat resistance	Barcode
Foamed polyethylene	Modified acrylic	EL195	19mm*5m	30 pcs.	White	Blister packaging	1,1mm	from -20°C to +120°C	4824025532805

APPLICATION:

Double-sided adhesive tape **Electro Energy Fix from TM MUSTANG** is a high-quality technological tape that provides reliable and durable fixation of electrical installation media. Due to the thickness of 1.1 mm and the foam base, the tape compensates for all the unevenness of the surface on which the installation is carried out, evenly distributes the load over the entire plane of the base and forms a strong connection. The special modified adhesive base of the tape ensures durability of the attachment, resistance to low and high temperatures, moisture, dust, dirt and other external irritants. The tape is designed for outdoor and indoor use.

THE TAPE IS PERFECT FOR ADHESION AND INSTALLATION:

- cable channels;
- electrical boxes;
- boxes for machines;
- enclosures for counters;
- external shields;
- mounting profiles;
- electrical media.

ADVANTAGES:

- resistance to heavy loads;
- the possibility of vertical and horizontal mounting;
- resistance to temperature changes, UV - radiation and moisture;
- high peel and shear strength;
- fastening durability;
- high level of initial and final adhesion;
- provides an even and complete structure of materials, that are stuck together.
