

PROTECTIVE FILM

Professional

Protective film with masking tape from TM Mustang is made of transparent polyethylene. Adhesive masking tape is applied along the length of the edge of the roll's film coating for reliable and quick fixing of the film to the wall for up to 8 days. The premium quality protective coating adheres tightly to surfaces made of metal, plastic, drywall, and is distinguished by high adhesion to glass, tiles and wallpaper.

ADVANTAGES:

- the ability to use it on dusty surfaces;
- reliable and fast fastening due to the masking tape;
- leaves no glue traces after removal;
- controlling and retaining dust due to electrostatic properties;
- tight fit to surfaces, reliability of protection;
- high adhesion of the masking tape.

CHARACTERISTICS:

Material	Vendor code	Size	Quantity pcs/box	Color	Barcode
polyethylene + masking tape	MR550	550mm*15m	50 pcs.	transparent	4824025687727
	MR1100	1100mm*15m	25 pcs.		4824025687734
	MR1500	1500mm*15m	25 pcs.		4824025687741
	MR2700	2700mm*15m	25 pcs.		4824025687758
