

MASKING TAPE

contour

CHARACTERISTICS:

Base material	Adhesive layer	Vendor code	Size	Quantity in a box	Color	Packaging	Thickness	Heat resistance	Barcode
Crepes paper	Solvent	MTG4825	48mm*25m	72 pcs.	Green	Colored label on roll, individually shrink-wrapped	140 microns	up to +70 °C	4824025532577
		MTG4850	48mm*50m	36 pcs.					4824025532584

APPLICATION:

Masking tape CONTOUR from TM Mustang is a self-adhesive tape made of textured crepe paper with an adhesive layer of acrylic solvent. For indoor and outdoor use. UV resistant. The structure of the tape and its adhesive composition provide high adhesion to such complex materials as stone, concrete, wood. The tape is applicable:

- in the process of painting and finishing, protects surfaces from the ingress of paint and other liquids outdoors;
- it is used to create a protective cloth when carrying out a wide variety of works.

ADVANTAGES:

- ideal for painting work on the exterior and interior decoration of premises;
- a high level of adhesion to any type of surface: stone, wood, brick, metal, plastic;
- high elasticity of the tape;
- ideal for separating colors during painting work;
- adhesive composition based on solvent glue is resistant to temperature changes, UV-radiation, moisture, solvent, dust and dirt;
- adheres tightly to even, uneven and rough surfaces;
- leaves no glue residue after removal.
