

# DEHUMIDIFIER

**Max** ←  
→ **Dry**

Dehumidifier and absorber of unpleasant odors MAX DRY BOX™ Mustang is an innovative product which due to an active tab or absorbent granules effectively eliminates the problem of increased moisture in any room and prevents its consequences, such as condensation on windows and walls, mold and fungus, stale odor, wet stains, parasites or wood rots.

#### ADVANTAGES:

- does not require connection to the power grid or use of batteries;
- works silently;
- prevents mold and fungus formation;
- absorbs 1.5 times more moisture from air than other similar systems;
- blocks unpleasant and musty odors;
- prevents the formation of condensate;
- protects against dampness.

#### APPLICATION:

- badly ventilated/insulated areas;
- rooms where the wallpapers have been just glued;
- premises which are not heated;
- rooms that are rarely used;
- rooms affected by water;
- kitchens/bedrooms/bathrooms;
- cottages/ summer houses;
- gyms;
- attics, basements, wine cellars, garages.

#### TECHNICAL SPECIFICATIONS:

| Vendor code | Absorbent                    | Validity of absorbent | Absorbent weight           | Container volume | Area             | Relative humidity | Barcode       |
|-------------|------------------------------|-----------------------|----------------------------|------------------|------------------|-------------------|---------------|
| MSA1350     | calcium chloride, impurities | 1-2 months*           | 500g tablet, 500g granules | 1350ml           | 30m <sup>2</sup> | 65%               | 4824025535349 |
