

DOUBLE-SIDED TISSUE TAPE

The double-sided tissue tape is a high quality non-woven cellulose tape with a synthetic rubber adhesive protected by a bisiliconized paper liner. Due to its thickness, the tape provides fast, airtight and inconspicuous adhesion.

CHARACTERISTICS:

Base material	Adhesive layer	Vendor code	Size	Quantity pcs/box	Color	Thickness	Adhesion	Barcode
Nonwoven cellulose	Synthetic rubber	ATD1210	12mm*10m	300 pcs.	Base - transparent, liner - white	80 µm	12H/25mm	4824012004513
		ATD2010	20mm*10m	180 pcs.				4824012004537
		ATD2410	24mm*10m	144 pcs.				4824012004551
		ATD4510	45mm*10m	72 pcs.				4824012004575
		ATD4520	45mm*20m	72 pcs.				4824012004582

APPLICATION:

- gluing paper, thin cardboard, thin plastic, envelopes, packages, folders, flags;
- gluing paper during production and printing;
- gluing of various films;
- fastening of light elements, such as signs, signboards, strips, plates, decorative elements;
- installation of plastic elements;
- gluing and installation of POS materials and souvenirs;
- gluing felt;
- gluing small metal, plastic, glass parts to flat surfaces;
- gluing calendars, folders made of thick cardboard, laminated surfaces, photo paper, design cardboard;
- installation of cardboard shelf talkers to the shelves;
- arrangement of retail space;
- fixation of information carriers;
- processing of metals with decorative elements;
- lamination of leather, textiles, foam materials.

ADVANTAGES:

- high primary adhesion to a wide range of surfaces;
- UV stability, resistance to solvents;
- resistance to plasticizer migration;
- reliability of fastening due to the strength of the tape;
- the convenience of use.
