

# MASKING TAPE

*universal*

**UNIVERSAL** white masking tape from **TM Mustang** is a single-sided adhesive tape made of textured corrugated paper with an adhesive layer of synthetic rubber. This type of tape is used for repair and interior decoration works. The specificity of the adhesive layer determines the high adhesive properties of the tape in combination with its easy removal from any surface. The main area of application is repair and construction work.

| Base material | Adhesive layer   | Vendor code | Size          | Quantity pcs/box | Color | Thickness   | Heat resistance | Barcode       |
|---------------|------------------|-------------|---------------|------------------|-------|-------------|-----------------|---------------|

## CHARACTERISTICS:

## APPLICATION:

## ADVANTAGES:

- protection of any surfaces (wallpaper, individual sections of walls, tiles, glass, mirrors) when painting, creating multi-color compositions, applying plaster;
- protection of the door panel from foam during installation;
- creation of markings;
- protection of glass, plastic and metal surfaces from scratches and chips;
- repair of books and printed products;
- limitation of areas of painting in production and repair work;
- fastening paper and stencils to easels or walls;
- fixing screws in screwdrivers;
- quick marking of drilling points.
- high level of strength (resistance to edge tears);
- compatibility with most types of paints and varnishes;
- absence of traces of glue on surfaces after removal;
- elasticity and excellent adhesion to the surface;
- preservation of quality parameters for a long time;
- resistance to solvents.
