

REFILLABLE **Max** TABS/GRANULES **Dry**

FOR MOISTURE ABSORBER

Refillable absorbent tabs and granules **MAX DRY™ Mustang** are designed for use with most moisture absorber kits. Problems of high humidity, musty odors, mold, fungus, wet spots, formation of condensate on windows and walls are effectively eliminated.

Due to its components the absorbent rapidly absorbs excess moisture from the air and converts it into a saline solution. The active absorbing tab/ package with granules is active for 2 months in a 30m² room at 65% relative air humidity.

ADVANTAGES:

- flavorless;
- effective absorption of moisture and musty odors;
- convenience and practicality;
- absorbs 1.5 times more moisture than other similar systems;
- no waste after use.

CHARACTERISTICS:

Product name	Area	Relative humidity	Ingredients	Vendor code	Quantity	Barcode	Period of effectiveness*	Weight
Tab for MAX DRY MUSTANG moisture absorber	30 m ²	65%	calcium chloride, impurities	MSA500T	1 шт.	4824025535363	1-2 months	500g
